

WHY SHOULD YOU USE TRITONWEAR?

Track · Learn · Improve

MORE PERSONAL ATTENTION

Automating data collection enables coaches to spend more time watching and improving your athlete's technique.

Access to 30+ data points enables coaches to provide better feedback to your athlete more often, with advice tailored to help them improve faster.

A DASHBOARD OF KNOWLEDGE

Access to valuable metrics enables you to quickly & easily understand what's happening in the pool. This will empower you to monitor attendance, effort, improvement and goal progress.

Resources like **Readiness, Focus, and Intensity**, built from evolving Athlete models provide real actionable insights, and realistic benchmarks for athletes to pursue.

INCREASED ATTENTION TO DETAIL

Access to invaluable performance data on deck allows coaches to focus on the intricate details of technique, holding your athlete accountable for their every movement in and out of the water.

Requiring athletes to review their workouts and bring ideas to train smarter to each practice, forces them to notice and question even the smallest change in their metrics.

ATTRACT COLLEGE RECRUITERS

The education gained through use of TritonWear will help your athlete become a better competitor, generating more interest from recruiting experts.

During recruiting interviews, athletes can utilize their personal performance metrics & training strategy knowledge to position themselves as more desirable for top paying scholarship awards.
